Step One:
Please review all the training aids available in your Participant Dashboard Training Center including: Sales Training Video, Print Leave Behind, Sales Tips, and Learn About the App through Video

Note: You will see references to the "iBuddyClub" App. This is the parent application and application of the Purpose Driven Funding App, but works exactly the same. We call it powered by iBC or powered by iBuddyClub.

Step Two:
Click on "Share App with Friends and Family" located in the upper right of your Participant Dashboard screen. This feature provides multiple ways to "Share the Savings" with friends and family including:
   a. The iOS option only works for Mac's, iPads and iPhones.
   b. Send Emails
   c. Send a Text Messages
   d. Share on Facebook
   e. Share on Twitter, and
   f. Share on Linked in

All of the options work on all devices including all iOS devices such as iPhone, iPad, and Mac. Each option includes an editable pre-written letter with your activity information and populated code. This is an easy, safe and fun way to contact all your friends and family about your fundraiser.

Step Three:
Once you and your Friends and Family have purchased the App, they can "Refer a Friend" or "Gift a Friend" from the App "Side Bar". Your personal Fundraising code stays embedded.

Step Four:
Check out the "Leave Behind Letter" located in your Participant Portal Training Center. Type in your personal code on the letter. Then print it and pass it out to neighbors, friends, family members, or colleagues at work. Make sure you write down any person who commits to buy the App so that you can follow up with them if you don't see them in your "Participant Dashboard". You can remind them to buy and save!
